PATTERN COINS

Pattern coins are coins designed for, but not issued as, coins of the United States. One, the Lincoln nickel (5¢), picturing Lincoln is known.

CIVIL WAR TOKENS AND CARDS

Those tokens and cards were issued privately from 1861 to 1865, and most of them were current, owing to the scarcity of minor coin. They were issued in 22 states and 396 towns. They were struck in copper, brass, nickel, copper nickel, white metal, lead, zinc, tin, silver, and german silver, but copper was chiefly used. There are 8,961 different varieties known at present (1,324 tokens of patriotic design and 7,637 cards). 47 cards and tokens with the head of Lincoln are known.

In Illinois, the following 32 towns issued a total of 292 Civil War cards: Alton, Aurora, Belvidere, Bloomington, Cairo, Chemung, Chicago, De Kalb, Dixon, Durand, Elgin, El Paso, Freeport, Lacon, La Salle, Lena, Loda, Marengo, Mendota, Naperville, Ottawa, Palatine, Paris, Peru, Pontiac, Rockford, Rockton, Sandwich, Springfield, Sycamore, Waukegan and Woodstock. The compiler does not know whether Lincoln was pictured on any of these Illinois cards.

NEIL S. COOPER

Dear Collector:

As a collector of medallic art we believe you will be interested in our program of publishing limited edition original works of art in metal by the worlds foremost artists and sculptors. In addition to the small sculptures, illustrated on the enclosed brochure we will shortly be announcing works by Roy Lichtenstein, Jean Arp, and several other major artists. Collectors now have the unique opportunity of acquiring interesting pieces by important artists that may very well appreciate in value over the years.

The Duchamp "Medallic Sculpture" and Ernest Trova" Manscape" are original works created in collaboration with International Collectors Society as part of a continuing program to publish original Medallic Sculpture by major contemporary artists in limited editions. All pieces are signed, numbered and are accompanied with Certificates of Registration.

As this brochure was being printed, Marcel Duchamp, Age 81, passed away. Mr. Duchamp was recognized throughout the world as a major figure in contemporary art, and we are highly honored that his last original work of art, "Medallic Sculpture", pictured in the enclosed brochure, was published by our firm. In his New York Times Obituary of October 2, 1968, Mr. Duchamp was referred to as "one of the most influential artists of the century" and "enigmatic giant of modern art". His famous "Nude Descending a Staircase", which he originally sold for \$240.00 now hangs in the Arensberg collection of the Philadelphia Museum of Art and is presently valued at more than \$250,000.

Best wishes.

Neil S. Cooper President

P.S. Because of the strictly limited editions, prices are subject to change at the publisher's discretion; and we reserve the right to limit the size of all orders.

TROVA "MANSCAPE"

The International Collectors Society has embarked on a unique publishing program which will enable collectors to acquire original signed sculptures by world famous artists in precious metals and bronze at reasonable prices. Traditionally, sculpture has been fabricated in six or eight signed pieces. Now, technological improvements, in casting procedures and die making, afford the artist the opportunity to explore his creativity in larger limited editions, which under his supervision meet the highest standards of quality and fidelity. We plan a continuing program of original limited edition sculpture by internationally respected artists who will be commissioned by International Collectors Society expressly for this purpose.

Ernest Trova is a prominent figure in the contemporary art world whose works have been exhibited at the Whitney Museum of American Art, the Solomon R. Guggenheim Museum, the Museum of Modern Art, the Art Institute of Chicago, and museums throughout the world. His paintings and sculptures are included in most major collections including Richard Brown Baker, E. J. Powers, Harry N. Abrams, Albert A. List, Howard Lipman, Phillip Johnson, Burton Tremaine, Lionel Bauman, David Solinger, Lee Ault, Mrs. Robert Benjamin, Seymour Schweber, many of whom have acquired the newly published "Manscape". His most recent sculptures have brought prices as high as \$60,000 and his work is in such popular demand that his pieces are very seldom available.

The "Manscape", a thick four inch double faced relief sculpture is being issued in a limited edition of fifty sculptures in pure silver and seventy-five sculptures in gold plated bronze, plus eight artists proofs which are not for sale. The sculptures are signed and numbered and exhibit mirror-bright surfaces. Each sculpture comes with a Kulicke free standing mount and a certificate of authenticity. Mr. Lawrence Alloway, former curator of the Guggenheim Museum in New York, has written a descriptive essay which accompanies each sculpture.

"Manscape" is a graphic dramatization of Trova's concern with the relationship of man in modern society, a flawed, fallen, imperfect and unfit creature who constantly needs technological boosts to maintain his equilibrium in space on the Wheel of Fortune, where he is alternately rising and falling.

Twelve Artists Proofs

Mr. Marcel Duchamp, eighty years old, and recognized throughout the world as one of the greatest living artists has created his first original limited edition Medallic Sculpture. This is especially significant as Mr. Duchamp's art works are eagerly sought after by all museums and important collectors. Although a major influence on modern art and historically a legend in his own time, Mr. Duchamp is not prolific and the demand for his art far exceeds the supply.

Individually cast by the Shaw "lost wax" process, the pieces are two sided deep relief sculptures. A special eight-inch free standing Kulicke mount has been designed to exhibit them from either side as important and prestigeous desk sculptures, or they can be removed and used as paperweights.

Issued in a limited edition of 312 original, signed and numbered castings, the Duchamp Sculpture has already been acquired by the Museum of Modern Art, the Smithsonian Institution, Bowdoin College Art Museum, and many private collectors.

Each sculpture comes with a Certificate of Registration and will be shipped via first class, registered and insured mail. The sculptures may be returned for a full refund within three days of receipt for any reason whatsoever.

Mr. Lawrence Alloway, former Curator of the Guggenheim Museum acted as artistic consultant for this project.

THE LINCOLN HERITAGE TRAIL OFFICIAL COMMEMORATIVE MEDALLION

LINCOLN HERITAGE TRAIL

OFFICIAL COMMEMORATIVE MEDALLION

In recognition of the many years Abraham Lincoln spent in Kentucky, Indiana and Illinois, the Lincoln Heritage Trail Foundation has issued a 1970 commemorative medallion. The front of this beautiful medal features the bearded Lincoln. On the reverse side is a map of the historic Lincoln Heritage Trail that follows the great emancipator's footsteps from his birthplace in Kentucky through his boyhood in Indiana and on to Illinois where he grew to manhood. Certain to become collector's items, these medals are being issued in one-and-one-half inch and two-and-one-half inch sizes. Both are available in either .999 fine silver or bronze. The medals were struck by the Medallic Art Company of New York, a recognized leader in the commemorative medallion field.

The silver medallions, available in limited quantities, will be serially numbered. This will, of course, enhance their value.

Proceeds from medallion sales will be used by the non-profit Lincoln Heritage Trail Foundation to encourage travel along the 2,200-mile Trail, and to perpetuate the many historic Lincoln shrines in the three states.

Marathon Oil Company offers these 1970
Lincoln Heritage Trail commemorative
medallions to show its support for the
Foundation's work. Marathon derives no
money from the medallion sales. All
proceeds will go to the Foundation,
established in 1963 by the governors of
Kentucky, Indiana and Illinois, to help
keep history alive.

THE FRANKLIN MINT

FRANKLIN CENTER, PENNSYLVANIA 19063

September 29, 1972

Dear Collector:

You are invited to acquire the most important series of medals to be issued in commemoration of the most important historic occasion of our lifetime -- the 200th anniversary of the birth of our nation.

I am referring to THE FIFTY-STATE BICENTENNIAL MEDAL COLLECTION.

This is the complete collection of Bicentennial commemorative medals created by the 50 award-winning artists in the nationwide Bicentennial Medal Design Competition. Each of these medals is a singular work of art. Each won the top award of \$5,000 in its own statewide competition. The collection as a whole thus represents \$250,000 of award-winning art.

The complete collection of 50 medals -- representing all 50 States of the Union -- is certain to become one of the most coveted heirlooms of the Bicentennial era.

The <u>First Edition</u> of this unique collection will be a special <u>Proof Set</u> edition. It will be struck in solid sterling silver for presentation to dignitaries including the <u>President</u> of the <u>United States</u> and the <u>Governor of each State</u>, as well as for the <u>private collections of qualified subscribers</u>.

There will be no public advertising of the Proof Set edition. Subscription rights are available by invitation only. All subscriptions for this important First Edition must be postmarked by October 15, 1972, and there is a strict limit of one Proof Set per subscriber.

You will find complete information about this extraordinary commemorative program in the enclosed VIP prospectus, which was prepared expressly for prominent citizens of the United States.

I urge you, as an established Franklin Mint collector, to read the prospectus promptly and to mail your non-transferable order form before the October 15 deadline. I know you will find collecting these prizewinning Bicentennial medals an absorbing and inspiring experience.

Sincerely,

Charles Andes President

AUCTION #11 — CLOSING DATE MONDAY, JULY 20, 1987

REX STARK 49 WETHERSFIELO RO BELLINGHAM MA 02019 617-966-0994 ANYTIME

Enclosed is my mail auction catalog #11. My original plan was for this to be a large general sale of 5000 items, including political, advertising, military, expositions, sports, toys and character items, police + fire, photography, numismatic, etc etc. When it became obvious that I could not have that sale completed on schedule, it was decided to issue the political sections as a separate catalog. Catalog #12 will include all of the above categories, and will be sent to those people who ordered #11 in advance. Most of the photographs have already been taken, and the catalog should be out in late October.

I take great pride in offering what are generally considered to be the <u>finest quality</u> mail auctions in the country. In terms of quality of illustrations, correctness of descriptions, and reasonable price estimates, there is seldom need for any apologies on my part. These points, coupled with the overall high quality of the items being offered, induce many first time customers to take part in my sales, even though they may not have done much buying by mail in the past. I pride myself on my reputation for integrity and fair dealings, and for the variety and quality of my inventory. I would urge each of you receiving this catalog to examine it, and if anything appeals to you as a collector or dealer, please let me hear from you.

For those of you who have not taken part in mail auctions, the rules are rather simple and are outlined below. In the past decade mail auctions have become a prime source for many types of small collectibles. Buying by mail is simple and easy, and also allows collectors to cut down on the time and expense of travel. I look forward to hearing from each of you.

AUCTION RULES

TMAIA

- Items are sold to the highest bidder at the bid price.
 Bidders may place a limit on their winnings by specifying the maximum amount they wish to spend in the auction.
 Conditional bids are acceptable, such as "If I lose item A, add \$50 to Item B" or "If I don't win
- Conditional bids are acceptable, such as "If I lose item A, add \$50 to Item B" or "If I don't win Item A, accept the following bids..."
 Telephone bids are acceptable until midnight on the closing date or until calls cease that night. Bidders may find out the current high bid and then either increase it by a minimum of 10% or pass on that item. The phone rings constantly on the closing night. Calls made earlier in the day should get through to me much easier. After the last auction a number of people said they tried all night to get through to me, with no luck. For this reason I would urge customers to call a day or two prior to the closing date, or to mail in a bidsheet in case they forget to phone. Approximately 80% of the bidders in my sales bid only by mail, and that is certainly the easiest and surest way to get your bids recorded.

 Mail bids must be postmarked on or before the closing date.

 I reserve the right to reject any or all bids.

 I reserve the right to reject any or all bids.

As usual, the first part of the catalog consists of political tokens, medals, ferrotypes, clothing buttons, badges, etc., circa 1780-1900. Standard references on these early items are OeWitt's A CENTURY OF CAMPAIGN BUTTONS 1789-1889, Sullivan's AMERICAN POLITICAL BAOGES ANO MEDALETS, 1789-1892 (a revision of OeWitt), Hake's POLITICAL BUTTONS 800K III and Albert's RECORO OF AMERICAN UNIFORM ANO HISTORICAL BUTTONS. These items will RECORD OF AMERICAN UNIFORM AND HISTORICAL BUTTONS. These items will be graded by numismatic standards of good - very good - fine - very fine extremely fine - about uncirculated uncirculated. Items in XF or better are choice examples that by nonnumismatic standards would be called perfect or near mint. The fine-VF grades indicate a nice average specimen. With the new Sullivan book replacing the long out of print DeWitt, prices on these items are climbing steadily, and today most are considerably undervalued relative to their rarity and historical

Dr. Martin Luther King Jr. MEMORIAL MEDALLION

The violence of this century has expressed itself in the assassination of the world's foremost statesmen and visionaries. Brutally struck down at the height of his power, Dr. Martin Luther King, Jr., devoted his life to international peace and brotherhood through non-violent means.

In tribute to this great statesman, Mr. Abram Belskie, Fellow of the National Sculpture Society and world famous portrait artist was selected to design the definitive Commemorative Memorial Medallion which was struck at the Medallic Art Company of New York City. In order to capture the depth and sensitivity of Dr. King's expression, special high relief models were designed which have resulted in magnificent multi-struck portrait medallions. A limited

multi-struck gem proof **COLLECTORS EDITION** was painstakingly prepared requiring each medallion to be struck five separate blows to bring out the high relief in true proof condition. The fifth blow was struck from dies scientifically and chemically treated to impart a two-tone proof luster finish. This new and difficult process offers a revolutionary technique to medallists throughout the world.

FIRST EDITION COLLECTORS PRESENTATION SET limited in mintage to only 500 sets. Each set consists of one .999 Fine Silver Gem Proof, serially numbered and hallmarked, and one Solid Bronze Gem Proof, serially numbered. The two medallions (40 plus mm, in diameter) are encased in a beautiful double cavity padded leatherette collectors display chest enabling easy viewing of both sides of the medal simultaneously. Only 500 proofs of each metal are minted and each of the 500 two-medal matched sets comes with a numbered Certificate of Registration. Price \$39.95 each. Available now. Only one set per order.

HIGH RELIEF OXIDIZED FINISH . . . Same as above except with the traditional oxidized and lacquered finish. Each set consists of one .999 Fine Silver and one Bronze medallion in a custom case exhibiting obverse and reverse. Unlimited mintage. Price \$29.95 each set. Available now.

2½ INCH DOUBLE THICK DESK MEDALLION OR PAPER WEIGHT An enlarged 65 mm. weighty desk sculpture. High relief and impressive in artistic stature. Oxidized Bronze with metal desk stand. Price \$12.95 each. Oxidized Silver (limited in mintage to 500 medallions). Price \$59.95 each. Each Silver piece is .999 Fine Silver, hallmarked, numbered, and comes with a Certificate of Authenticity, and metal desk stand.

The historic achievements of Dr. Martin Luther King, Jr., have earned him the admiration and respect of the world community. The Martin Luther King, Jr., Memorial Medallion will be a permanent reminder of a great human being whose very death gave credence to his often quoted remark, "non-violence or non-existence".

HAILE SELASSIE I,

EMPEROR OF ETHIOPIA,

OFFICIAL MEDALLION

Historically, the minting of Ethiopian coinage has frequently been administered by the U.S. Mint in Philadelphia. In keeping with this tradition the Ethiopian Government has assigned the International Numismatic Agency of New York the task of creating an officially authorized Commemorative Medal honoring the seventy-fifth birthday of Haile Selassie, Emperor of Ethiopia. The Medal, fabricated at the Franklin Mint, was officially issued by His Imperial Majesty in connection with his state visit to Canada in 1967 where he proclaimed the longstanding friendship between his country and Canada.

The medal is 38.8 mm in diameter and features a dramatic portrait of Haile Selassie on the obverse and the Ethiopian Coat of Arms on the reverse. One gold specimen was presented in an official ceremony to his Imperial Majesty on May 2nd, 1967 in Montreal in connection with the opening of Expo '67.

DOUBLE PRESENTATION SETS OF .999 FINE SILVER . . . 200 presentation sets each consisting of two silver proof medals numbered 1 through 400. These have been sold out and we are interested in acquiring a few of these sets for our clients.

SINGLE PRESENTATION SETS OF SOLID STERLING SILVER . . . specimens no. 401 through 1000 in proof condition. Sold Out. SOLID BRONZE PROOF-LIKE a magnificent high luster coin-medal with continental double width reeding. Housed in single cavity official case bearing colors of Ethiopia. No mintage limitation. NOW AVAILABLE. Price \$7.50 each—as the Silver edition, limited to 1000 specimens, is completely sold out we suggest you place your order immediately for the bronze mirror finish specimen while they are still available.

A legend in his remote land of twenty-two million people, Haile Selassie, 255th Emperor of Ethiopia, ruled when Europe was convulsed by World War I and during the terms of nine U.S. Presidents. He is called by his countrymen, "King of Kings, Elect of God, and Conquering Lion of the Tribe of Judah." He has ruled through the dawn of the nuclear era, the slow death of colonialism and the birth of the new nationalism, through attempted coups and conquest by armed foes, and he alone of the world's leaders has endured and grown in personal power in the past half-century.

THE WAR IN THE DESERT

The Middle East War is dramatically depicted on two medals, available separately or in a presentation set of two medals that captures in graphic detail the major military events that led to the Israeli victory in the war against the Arabs. This fantastic six day holocaust has set the stage for new power alignments in the Middle East and hopefully will lead to peace and harmony for this troubled area.

The Israeli Air Strike Medal portrays the suprise attack conducted below radar visibility that destroyed much of the Arab air potential. The obverse is a military portrait of General Moshe Dayan, Defense Minister of Israel.

The Tank Battle in the Sinai Medal is a sculptured rendering of the Israeli Tank Force routing the Russian supplied Egyptian armor. General Rabin, military hero and current Ambassador to the United States, is featured on the obverse.

These 1.525 inch commemorative medallions, struck by the proof coining process at the Franklin Mint, have been acquired by leading numismatic collections including the Frankenhuis Collection and the Jewish Museum in New York City.

INDIAN PEACE AND FRIENDSHIP MEDAL HONORING EISENHOWER AND KENNEDY

The Miccosukee Indian Nation of Florida has honored Presidents Eisenhower and Kennedy on the first Indian Peace and Friendship Medal struck in over 78 years.

In 1817, the Miccosukees joined with their brother Seminoles in a war against the United States that was never officially ended. The Miccosukees refused to surrender to overwhelming forces and not until 1962 did they formalize any agreement recognizing the Federal Government and ending a war that lasted for 145 years. This document, the Miccosukee Constitution, was signed by the Eisenhower administration and activated under President Kennedy. According to the Association on American Indian Affairs it established Federal recognition of the Miccosukee Nation and protected their tribal rights and religion.

In the tradition of the historic Peace and Friendship Medals of the 19th Century the Miccosukees as the last of the American Indian tribes to reach an accord with the United States Government have authorized a special medallic issue. The famous Peace and Friendship medals were originally awarded by Presidents of the United States to Tribal Chieftains at the time of the signing of a treaty or peace agreement. Most of these medals were buried with their owners as they were highly prized personal tokens of the esteem of the United States Government. Numismatically they are very rare and hard to come by as recent soaring prices in the international auction market have indicated.

The Miccosukee Medal, the first treaty medal ever to be originated by an Indian Tribe, is slightly thicker and larger than the U.S. silver dollar. The obverse features a joint portrait of Eisenhower and Kennedy over the words "GREAT FATHERS". On the reverse is a rendering of the tribal seal, the symbolic American Eagle in flight, and two hands clasped in friendship. DOUBLE PRESENTATION SET . . . Two hundred numbered Collectors Sets consisting of two consecutively numbered gem proof Fine Silver specimens numbered 1 through 400. Sold out. We would be interested in acquiring a few of these sets for our clients.

SINGLE PRESENTATION SET . . . Specimens numbered 401 through 1,000 in Sterling Silver proof. Sold out. SOLID BRONZE . . . Mint quality bronze specimens. Double width reading pattern. Coin Strike. Available for the first time at \$5.95 each in case of issue.

POLISH HEROES FREEDOM CROWN • • COMMEMORATIVE TEN ZLOTY COIN

In 1939, as Poland was being occupied by the Nazis, Winston Churchill invited the reigning government to sanctuary in London. Today the chief purpose of the Government-in-Exile is to restore independence, freedom and sovereignty to a Poland that has become a Russian Communist satellite and for this reason it is diplomatically and officially recognized by many of the world's free nations including the Vatican, Irish Free State, Lebanon, Spain and Portugal.

By official decree the Government-in-Exile, under the leadership of the President of the Republic of Poland, His Excellency August Zaleskie, has authorized a new crown size Ten Zloty Commemorative Coin honoring the two

international heroes, Pilsudski and Kosciuszko. The new coin will have a numismatic and commemorative character until the Constitution of 23 April, 1935 (Official Journal of Laws of the Republic of Poland, Number 30 of 24 April, 1935), is restored as binding in Poland at which time it will be entered into circulation as legal tender coinage of Polish currency.

The coin features a co-joined portrait of the two heroes on the obverse and the Great Seal of State of the President of the Polish Republic on the reverse, including the crowned pre-World War II eagle, symbol of Poland for 1000 years. The Russians have removed the crown from "their" eagle.

The coin, 1.525 inches in diameter, honors the 150th Anniversary of Thaddeus Kosciuszko's death and the 100th Anniversary of Joseph Pilsudski's birth. Kosciuszko, designer of the U.S. Military Academy at West Point and military hero of the American Revolution and Polish-Russian wars, was awarded citizenship and the rank of General by the United States Congress in 1783. Pilsudski, Commandant of the Polish Legions, defeated the Bolsheviks at the Battle of Warsaw and initiated the promulgation of the Constitution of 1935. Of numismatic note is the fact that both of these heroes appeared on commemorative coins issued in free Poland prior to 1939.

We believe this interesting official coin has important historical and numismatic significance which will require considerable scholarly research in the field of coins of exiled governments. Each coin comes with a copy of the English translation of the extract documenting the authorization of the issue.

.999 FINE SILVER . . . Edition limited to 750 serially numbered, hallmarked gem proofs. Continental edge. In deluxe case \$25.00 each. Available now.

SOLID STERLING SILVER . . . Edition limited to 750 gem proof specimens; stamped STERLING. Continental edge. In deluxe case \$20.00 each. Available now.

SOLID BRONZE . . . Brilliant proof-like. Continental edge. In handsome case \$10.00 each. Available now.

KING PETER II OF YUGOSLAVIA THE ROYAL COMMEMORATIVE COIN OF LIBERATION

King Peter II of Yugoslavia has authorized a new crown to be known as the Royal Commemorative Coin of Liberation. The new crown is issued to commemorate the 25th Anniversary of the Uprising at Ravna Gora and the gallant struggle of the Royal Yugoslav Army against Fascism and Communism.

Forced into exile, first by the Nazis and now by the Communists, King Peter II is one of several monarchs who no longer may re-enter his own country. For this reason this "protest" coin cannot be considered legal tender. According to the Royal Decree signed by King Peter II and executed from his Royal Residence in Exile, "this coin of liberation is to be, upon the liberation of the Fatherland, and by competent subsequent Governmental decisions, included in the official currency system of the Kingdom of Yugoslavia". It is for this reason that each coin is marked "essai".

The obverse of this coin features an effigy of His Majesty King Peter II as rendered from official photographs personally selected by His Majesty. The reverse pictures the official Royal Seal of the Royal Family of Yugoslavia. The portrait of King Peter II as a boy appeared on the coinage of Yugoslavia in 1934 and prior to the Nazi occupation and subsequent Communist domination under the regime of Tito. Future day historians will do doubt see much historical significance in the 1967 Commemorative which features a latter-day portrait of His Majesty.

FIRST EDITION .999 FINE SILVER GEM PROOF . . . 38.8 mm., mintage in this metal limited to 1000 specimens, hallmarked, serially numbered, in case of issue. \$25.00 each including copy of Royal Decree signed by King Peter II. A few available now.

Although the above two coins are not issued for circulation we believe they express through their official status and commemorative nature and by virtue of their strictly limited mintages an exceptional numismatic value. These pieces will probably become collectors items and achieve historical prominence as "forerunner" and "protest" coins brought about by the realignments of power caused by the Second World War. They are interesting additions to the cabinets of all collectors interested in beautiful specimens with unusual numismatic backgrounds.

INTERNATIONAL NUMISMATIC AGENCY

127 EAST 59TH STREET NEW YORK, N. Y. 10022

NEIL S. COOPER PRESIDENT

REVERSE

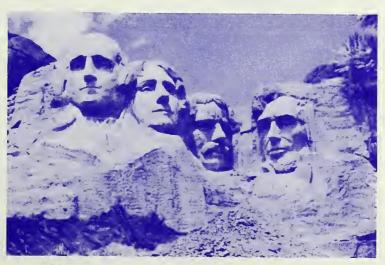

Pictured above are the sculptor's models of a new Double Commemorative Medallion just published by the International Numismatic Agency in tribute to the Office of the President in the national history of the United States. Two important national edifices are being jointly honored, Mt. Rushmore National Monument and the White House.

A First Edition Collectors Set has been struck in .999 Fine Silver High Relief Proof Finish in a limited edition of 1000 hallmarked, serially numbered specimens. In order to assure both high relief and proof finish, each medal has been struck a minimum of four blows from two different sets of hubs and dies.

The First Edition Collectors Sets are 41.3 mm in diameter and are considerably larger, heavier and thicker than the U.S. Silver Dollar. They are being fabricated at Medallic Art Co. of N.Y.C. and sculptured by Spero Anargyros creator of the Alaska Centennial Medal and Hawaii Statehood Medal.

The medals are housed in beautiful blue collectors cases and come with a copy of "Foreword" by Gutzon Borglum, visionary designer of Mt. Rushmore, the worlds largest mountain sculpture.

Price.....\$30.00 each plus \$.75 each set for postage and insurance.

THE FINEST ABRAHAM LINCOLN MEDAL

1140. (LINCOLNIANA) A medal of Abraham Lincoln, struck in pewter, 10½" in diameter, set in a dark velvet background with a dark hand-hewn maple frame atop of which is perched a bronze eagle with wings spread. Also, two letters of provenance of B.H. Collins, a nineteenth century

Washington curio dealer.

Collins misdescribes this medal as the Artist's Proof of the Rarest Lincoln Medal". It is not an artist's proof but the actual medal. He goes on to say that the piece was "formerly & for many years in the Executive Mansion. Purchased by me from Col. W.H. Crook for over 30 years an important employee of the White House. . .B.H. Collins." Crook was Lincoln's personal body guard (See Basler: Collected Works of Lincoln-VIII;328) and it is probably that he was given this as a memento for his services to the fallen leader. Because of the quality of the medal, in all likelihood it hung in the White House during Lincoln's terms of office. This may be born out by the fact that backing the medal is a group of Civil War military maps.

Collins eventually sold the medal in 1897 to Mrs. Wm. Whiting and he writes to her in February of that year confirming the sale and offering her more material: "Madam—I. . .acknowledge the receipt of your favor. . .enclosing check for \$100 in full payment for the unique. . .Medallic portrait of President Lincoln. . .well knowing it is at present a good investment as it is certain to enhance wonderfully in interest and value. . ." Without doubt the finest medallic representation of Abraham Lincoln. See photograph.
